UPDATE: NFP Forecast Tracking (Chart)

Here's a cool chart from Thomson Reuters Eikon that shows the consensus for NFP among 102 forecasters/economists. The max forecast is currently 210k and the minimum is 138k. Median and Mode are both 175k and mean is 174k. So there's a very unified consensus. We'll update you if the forecast changes after today's big ADP beat (a few announcements should come out shortly about upward revisions).
