## ALERT: Negative Reprices Now Likely to be Widespread

If you haven't seen a negative reprice so far today, you probably will. We aren't quite at the highest possible level of risk, but we're getting close. More importantly, we're breaking to weaker levels from previous support. 10's had been holding just under 2.36 and Fannie 3.5s had been holding just over 103-00. Both have been broken now, and Fannie 3.5s are down a full half-point on the day.

## Responsive service, experienced expertise

I've dedicated my 22 year mortgage career to client education, superior service, and honest answers. The lending landscape has changed dramatically the past few years, and continues to do so. My job is to ensure client partners' loans close quickly, without surprises, and I take that responsibility very seriously. Referrals are a responsibility I appreciate; they're a measure of trust, and that trust must be earned every day, on every referral.
