A Message from Ted Rood:

"Yikes! Might be time to lock some loans!"

ALERT: Negative Reprice Risk Increasing

Fannie 3.5s are now down 4/32nds (.125) from some lenders' rate sheet print times. Fannie 3.0s are down 5/32nds over the same time. Those lenders are now in a position to consider negative reprices.

NOTE: many lenders priced earlier in the morning when MBS prices were lower (in fact, they were even lower than current prices). Thus, they are at no risk of reprices. Bottom line, it's still a bit early for most lenders, even if they priced near the highs, but we could see a few at current levels.

Responsive service, experienced expertise

I've dedicated my 26 year mortgage career to client education, superior service, and honest answers. The lending landscape has changed dramatically the past few years, and continues to do so. My job is to ensure client partners' loans close quickly, without surprises, and I take that responsibility very seriously. Referrals are a responsibility I appreciate; they're a measure of trust, and that trust must be earned every day, on every referral.
