"Looks like our recent respite from rising rates has passed!"

Mortgage Rates Edge Higher Again

Mortgage rates were just slightly higher again today, keeping them in line with the highest levels in about 3 weeks. The same caveat applies: we're talking about "effective rates" (which factor in upfront lender costs) as opposed to "note rates" (the actual interest rate that most of us have in mind when discussing mortgage rates). In other words, most prospective borrowers are seeing the same old rate on any given day over the past 3 weeks, but the overall cost of financing, on average, would be highest today.

Responsive service, experienced expertise

I've dedicated my 22 year mortgage career to client education, superior service, and honest answers. The lending landscape has changed dramatically the past few years, and continues to do so. My job is to ensure client partners' loans close quickly, without surprises, and I take that responsibility very seriously. Referrals are a responsibility I appreciate; they're a measure of trust, and that trust must be earned every day, on every referral.
