## UPDATE: Brexit Drama Helping Bonds to Best Levels

Bonds began the day in roughly unchanged territory and didn't find any motivation for better or worse during the first few hours of trading. In the past hour, Brexit drama has unfolded to our benefit. The biggest market reaction is logically being seen in UK markets, but global equities are also taking a hit. US bond markets are soaking up a nominal amount of "risk-off" sponsorship.

As usual, Treasuries are getting far more of that love than MBS. Fannie 4.0 coupons are up only 1 tick (0.03) on the day at 101-10 (101.31). In contrast, 10yr Treasuries are nearly a quarter point stronger in price, and 2.4bps lower in yield to 2.834%.

## Responsive service, experienced expertise

I've dedicated my 22 year mortgage career to client education, superior service, and honest answers. The lending landscape has changed dramatically the past few years, and continues to do so. My job is to ensure client partners' loans close quickly, without surprises, and I take that responsibility very seriously. Referrals are a responsibility I appreciate; they're a measure of trust, and that trust must be earned every day, on every referral.
