## Refi Demand Surges Amid Falling Rates - MBA

Average mortgage rates declined during the week ended February 5, in at least one case to the lowest level in nearly three years. In response there was a **surge of mortgage applications** reported by the Mortgage Bankers Association (MBA), principally from applications for refinancing.

According to results of the MBA Weekly Mortgage Applications Survey, Mortgage Applications as measured by its Market Composite Index, increased by 9.3 percent on a seasonally adjusted basis compared to the week ended January 29. The index rose 12 percent unadjusted. The Refinance Index jumped 16 percent while the share of all applications that were for refinancing was up to 61.2 percent from 59.2 percent the previous week.

The Purchase Index eked out a seasonally adjusted **0.2 percent gain** from the previous week but was up 7 percent on an unadjusted basis. The index was 25 percent higher than during the same week in 2015.

## Responsive service, experienced expertise

I've dedicated my 22 year mortgage career to client education, superior service, and honest answers. The lending landscape has changed dramatically the past few years, and continues to do so. My job is to ensure client partners' loans close quickly, without surprises, and I take that responsibility very seriously. Referrals are a responsibility I appreciate; they're a measure of trust, and that trust must be earned every day, on every referral.
